MACHINE LEARNING INSIGHTS

About Project

Dataset

IBM Telco Customer Churn Dataset

Models Tested

- Logistic Regression
- Random Forest
- XGBoost

Selected Model

XGBoost Classifier

Deployment

Azure App Service + FastAPI

Visualization

Microsoft Power BI

Technologies Used

- Python Pandas
- Scikit-learn
- XGBoost
- FastAPI
- Azure App Service
- Power BI

Model	Sum of Accuracy	Sum of F1 Score	Sum of Precision	Sum of Recall	Sum of ROC-AUC
Random Forest	76,00	59,30	54,10	65,50	81,70
XGBoost	74,80	60,10	51,90	71,40	82,90
Logistic Regression	73,10	59,80	49,60	75,10	83,00
